SETTING UP THE GAME

Before heading out to the pitch, make sure to set up a *FIFA 10* User Profile to save all of your memorable accomplishments to the HDD.

- Create and edit your User Profile via the My FIFA > File Management > Save / Load / Delete > Save screens. Load and delete files via the Load and Delete screens, respectively.

PLAYING THE GAME

KICK-OFF

Select **QUICK MATCH** to get straight out onto the pitch with your default settings (and change the settings in **MY FIFA 10 > GAME SETTINGS**) or choose **EXHIBITION MATCH** or **BE A PRO MATCH** to play one-off “classic” or Be A Pro games.

SAVING AND LOADING

Before exiting a game mode or a menu where changes have been made, make sure you save your progress to your HDD (or unsaved information is lost). Load files manually by accessing the Load screen from most game mode menus.

NOTE: *FIFA 10* features an Autosave feature. When ON, game information is automatically saved to your HDD.

GAME MODES

NEW MANAGER MODE

Manager mode puts you in the shoes of your club's manager and lets you make all the big decisions! Track player growth, trades, manage sponsors, keep track of the club's budget and weekly wages, use the league tables to examine how your club stacks up to the rest of the teams in your league, and coordinate other aspects of team management in the most realistic simulation yet. The simulation of players, teams, and games is new and improved, leading to extremely realistic results and tables.

Juggle your budget to sign the hot new players and sign sponsors to maximize your profits and prestige. With authentic transfers, trades aren't just about money. Players take into account your team's prestige before they agree to your terms. If your club is low in status, don't expect to sign the big names right away. CPU teams aggressively sign players, as well, and sometimes grab your top prospect before you get a chance to talk to him!

Player growth is enhanced, as well. Players now grow according to their performance on the pitch. You must be clever and plan ahead so your team lands the best possible players. Focusing too much on one player can result in an unbalanced team.

NEW VIRTUAL PRO

Take to the pitch as an all-new player in *FIFA 10*'s brand new Virtual Pro mode. Begin your career and build your reputation from the ground up! Decide the position and build of your Virtual Pro, and determine his starting attributes, give him a GameFace, and then take to the field to become a superstar.

Use your Virtual Pro in any of the offline game modes, including Manager mode, Be A Pro Seasons, Lounge mode, and Kick-Off. Using your Virtual Pro efficiently allows you to earn accomplishments (at Semi-Pro difficulty or higher), upgrade his stats, and create a true superstar. Use your Virtual Pro online in the Pro Club Championship and take your Virtual Pro to the top of the world standings.

GAMEFACE

Virtual Pro brings an unprecedented level of detail to the creation process. Thanks to EA SPORTS Football World, found at www.easportsfootball.com, upload a photo and create a GameFace. When finished, bring your face into *FIFA 10* and apply it to your pro. Download the GameFaces of your club members when playing online too!

NEW

PRACTICE MODE/CREATE SET-PIECE

FIFA 10's Practice Arena is the place to hone your skills before getting into a game. With the ability to practice Set Pieces, play a practice match, and create Set Pieces, the Practice Arena is ready to whip you into shape.

The Practice Arena defaults to 1-on-1 action, so dribble around and shoot whenever you please. Use it to practice skill moves, work on your shooting, and get comfortable with the way your player moves.

To explore the other practice activities available to you, press the **SELECT** button to access the Practice Arena menu. Choosing Set Pieces allows you to practice free kicks (including penalties), throw-ins, and corner kicks. If you'd like to practice your skills without the pressure of playing in a real match, choose **PRACTICE MATCH** from the Practice Arena menu. There is no score and no game clock, so play for as long as you like. Additionally, decide how many attackers and defenders are on the pitch during your practice session.

Custom Set Pieces give you a chance to select a region and create up to four set pieces in that region. When creating a set piece, record run paths for members of your squad to be used on corners and free kicks around the penalty area. These created Set Pieces are assigned to certain buttons, so that they are triggered in-game to help you outwit your opposition, and create unique opportunities from dead ball situations.

LIVE SEASON 2.0

Live Season 2.0 brings fully up-to-date stats and records of your club directly into *FIFA 10*. Each week, My Live Season updates *FIFA 10* once a week with real-time performances, including injuries, transfers, suspensions, yellow cards, formations, and more. This year, Live Season 2.0 shows even more details about how each player's attributes are modified. Use this information to figure out exactly what your players', strengths, and weaknesses are.

My Live Season allows you to seamlessly integrate true-to-life stats and performances into your career, in addition to replaying real-world events in real-time. The rest of the league features up-to-date stats and results, giving you a chance to rewrite history after the end of each week of play. Erase your team's painful defeats and re-establish its dominance!

Once you've purchased a league, select **DOWNLOAD LATEST UPDATE** to use the latest real-world stats in your game. Select **LEAGUE SUMMARY** from the Live Season 2.0 main menu screen to check out player form summaries, including the league's Team of the Week. To examine a player from any of the leagues you've purchased, select **TEAM SUMMARY**.

NOTE: Live Season 2.0 supports the Barclay's Premier League, Liga BBVA, Ligue 1, 1.Bundesliga, Serie A, and the Mexican Primera Division.

NOTE: Weekly updates are released from October 2009 until the real-world leagues close in May 2010.

NOTE: Use Live Season 2.0 form updates in Kick-Off mode, Quick Ranked Online matches.

BE A PRO: SEASONS

In *Be A Pro: Seasons*, use a Virtual Pro, take control of a real player, or create an entirely new player to turn into a superstar. *Be A Pro: Seasons* puts you on the pitch in a new way, giving you the opportunity to grow your player and possibly even get called up to the national team.

Performing well during matches and completing certain objectives over the course of a game or a season results in your player gaining Experience Points (EXP). Virtual Pros, however, do not gain EXP, though they are able to unlock accomplishments. Spend these points on making your pro a better player. Increasing his abilities results in a better reputation for your club, and a higher likelihood of receiving international recognition. Go from a wet-behind-the-ears rookie to a seasoned superstar.

NOTE: If you need a helping hand with your pro, enlist the efforts of up to three friends on your path to greatness.

NOTE: Choose whether to play only as your selected pro or to control his entire team. Just remember to keep him in the action if you want to gain valuable EXP!

LOUNGE MODE

Compete for ultimate bragging rights with up to 19 friends in offline multiplayer challenges. Use cheap shots, such as starting the game with a goal head start or reducing your opposition's attributes by 50%, to stack the odds in your favor. Then pick up points for your performances and pass gameplay-related challenges to earn badges and further boost your score. The best part is, everyone's point totals are recorded and displayed in a league table so you can finally prove what you thought all along—that you are the *FIFA 10* king!

PLAYING BEHIND A FIREWALL OR ROUTER

This game uses the following network ports for playing online. If you are running a firewall, ensure it is set to allow the game to communicate on these ports both inbound and outbound:

TCP Ports: 80, 443, 9980-9989, 14500-14559, 42100

UDP Ports: 9570, 3659, 6000

If you are having difficulty connecting to other players online and your Internet connection is behind a router using NAT (Network Address Translation), you may need to enable port forwarding on your router by forwarding all data on ports **UDP 3659** and **UDP 6000** to the IP address of your PLAYSTATION®3 system. Alternatively, you can put your router into a DMZ—please consult your router help files for details on how to do this.

For more information on firewalls, port forwarding, and DMZs, please visit our online Support Centre at: <http://support.electronicarts.co.uk>

HEAD-TO-HEAD

Play with real teams, using real player stats, in a one-on-one matchup. Head-to-Head is highly competitive and a tried-and-true way to prove your superiority on the pitch. The improved search engine ensures that you are matched-up with users of a similar skill level, so finding a challenge is simple.

PRO CLUB CHAMPIONSHIP

Set up your very own *FIFA 10* super-club by signing up friends—and anyone your online scouting network has drawn your attention to. Then lead your teammates to glory in ranked matches against other *FIFA 10* clubs to prove your skills and justify your selection policy. There's no hiding behind a five-star team in this mode—you have to train your pro so that he becomes a skilled player and an asset to your club! Practice good teamwork to maximize your chances of winning, and a team of less-improved pros can win against a team of fully maxed-out pros! Use your Virtual Pros against other players and rack up accomplishments to grow them as time goes on!

Clubs need to recruit! Relying on your friends to build up your club is a great way to begin, but you'll need to seek out other great users to truly become a club to be reckoned with. The pro leaderboards show you the best-rated players, sorted by position. Keep an eye out for unsigned pros and recruit them for your club!

ONLINE TEAM PLAY

Online Team Play sends you online to play with real players, allowing you to pit your favorite club against friends, fans, and rivals nationwide. Play with up to 19 other players from all over the world, but keep in mind that unranked games do not count on the leaderboards. This mode is just for kicks, so hop in and have some fun!
